Give the Gift of Livestock

Benefits of Donating Livestock

Donors frequently seek to support nonprofit organizations that they share a vision with and that they truly believe in. A gift of livestock to the American Gelbvieh Foundation (AGF) results in a gift with a positive impact and benefits for the donor and the organization.

Donating livestock is as simple as filling out the donation form and taking the designated livestock to the sale barn. Because the proceeds of the sale animal will be sent directly to the charitable, nonprofit organization, the donation is treated similar to a cash gift and is tax-deductible.

All gifts to the American Gelbvieh Foundation may be designated for a specified purpose, including scholarships, research and the AGF Endowment Fund.

This information is not intended as legal or financial advice. Donors should consult with their independent professional advisors as to how gifting livestock best applies to their own situations.

“The AGF supports future research, education and youth involvement that will help secure a role for the Gelbvieh breed in the cattle industry for years to come”

-Mark Goes

MISSION: The American Gelbvieh Foundation (AGF) secures, grows and responsibly distributes assets for research, member education and youth development to sustain and grow Gelbvieh genetics.

Growing our Future by Building our Foundation
How It Works

Supporting the AGF with a livestock gift is simple and straightforward. To properly donate the proceeds of the sale of livestock follow these simple steps.

Donation commitment

Complete the donation form below. This form informs the sale barn or buyer to send the proceeds from the sale of the livestock directly to the American Gelbvieh Foundation. A copy of the donation form should be given to the sale barn or buyer as well as mailed, faxed or e-mailed to the AGF and a copy should be kept for the producer’s records. The livestock will remain in the producer’s care and custody until delivered to the sale barn or buyer.

Complete the gift properly

Transport the gifted livestock to the sale barn or buyer of choice and provide a copy of the completed donation form to the sale barn operator or buyer. Obtain a receipt for the number and type of livestock delivered. When the animal is sold, the proceeds will be sent directly to the charitable organization. After the sale, the donor will receive a letter from the AGF acknowledging the gift.
