SEPT Adrenaline N512 is a rare find of quality and proven pedigree. His Grandmother was Reserve National Champion Balancer Female in 2016 and has produced multiple herd sires. His proven Angus sire Blacklist needs no introduction. Adrenaline is a load of meat and maternal goodness with wonderful feet and that extra look we are seeking in a deep ribbed package. Balanced EPD profile which is in the top 15% $ Gain and top 25% for both CW and CREA. This guy is full of potential and eye appeal.

Before BARG Royalty Bred 1457N was even 3 months of age we knew he special! This bull puts together the most unique and attractive muscular pattern than we have ever seen. Every single person who has studied this bull has fallen in love with the presence he possesses. He is astonishingly bold ribbed, as wide as you can possibly make one, combined with a flawless foot shape, leg set, and substantial bone size. Royalty Bred comes by his name as he backed by generations of bulls and females that have made their mark on the Gelbvieh breed. He is sired by the 2023 Balancer Futurity Champion, Post Rock Clock Work and combines the likes of DLW Ms Edison 321A and EGL Pearl 265F, two highly regarded females in the breed. Combine the phenotype this bull features and the power in his blood with his unmatched performance and growth, we believe this bull has exactly what this breed needs to advance any seedstock operation in producing influential females and the kind of bulls that drive premiums on sale day. Thank you for your consideration.

MDR Downtown 5755 ET represents the pinnacle of Dobson Ranch's most proven and profitable genetics. His striking balance, muscle expression, and structural integrity make it easy to understand why commercial cattlemen across the country continue to invest in Gelbvieh influence. His pedigree is anchored by the revered Clara Allen 520C donor—an industry standout whose daughters have consistently set the bar for production, femininity, and longevity within the Balancer program. On the top side, his sire Stoney Larue extends an unprecedented legacy, marking the third consecutive generation to earn a national-caliber title. With more than a decade of disciplined selection for commercial functionality—and the depth of a cow family stacked with national champions—Downtown brings a rare blend of usefulness, marketability, and eye appeal. He is a bull designed to elevate any program, delivering the kind of phenotype that captures attention today while building the kind of cow herd that pays dividends for years to come.

Hilltop Farms is pleased to introduce HTFG Hilltops Nitro N515 as our 2026 Peoples Choice Balancer Bull futurity entry. This 62% Homozygous Black, Homozygous Polled son of our deceased herdsire, DLW Watchman 2502E is sure to impress as he is a man amongst boys. Nitro is super big middled, square at the ground and extremely stout. He is as equally as impressive when you view him on paper as he started at 78 lbs and weaned off his dam at 775 lbs, putting him in the top 3% of the breed for weaning weight EPD. Did we mention that Nitro has a past National Champion in his pedgree as his dam is a beautiful HTFM Mr. Equalizer E711 daughter. Be sure to look him up at the 2026 Cattlemens Congress in our stalls, and we look forward to visiting with you about this young herdsire's exciting future. Hilltop Farms is committed to raising quality seedstock. Thank You for your consideration!!

ProHart Nomad 520N represents many of the attributes we are striving to exemplify in our breeding program. 520 puts together a phenomenal phenotype – sound-made on a big foot with a long, fluid stride. He has a striking silhouette backed by depth of body, sleek shoulders, and a correct muscle pattern. Beyond his looks, Nomad puts together three traits that we believe are key to the current and future success of the Gelbvieh breed. His moderate birth and calving ease are traits we look for when selecting for our own breeding program. Nothing is more important than getting a live calf on the ground and avoiding dystocia so the female breeds back on time – ensuring she will stay in the herd for years to come. 520N is also a breed leader in marbling. Looking to the future, marbling is a trait we believe the Gelbvieh breed will need to increase to keep us at the forefront of the profit-minded commercial producer. We feel this young sire has great potential to contribute to the Gelbvieh breed. Thank you all for your consideration in the People's Choice Balancer Futurity.

We are proud to present TAU Haymaker 46N for this years Balancer Futurity. Haymaker is a Homozygous Black and Homozygous Polled son of LAR Man In Black out of our tremendous donor TAU Ms. Dimaggio 7144E. We love the outcross genetics of the Man In Black bull coupled with the proven pedigree of the 7144e donor cow. 46N's dam has put multiple bulls in seedstock operations and we feel Haymaker may be the best one yet. This half-blood's unique combination of foot size, loose skeletal build and stoutness of feature is something we sure strive for in our herd. He is a bull that offers a look of longevity and maternal quality and takes it to another level with his added growth, carcass and index readings as he ranks in the top 4% of the breed for WW and YW, along with all 3 indexes. We believe Haymaker's outcross pedigree is unique to the breed and he brings so many good things to the table in terms of phenotype. If you're looking for fresh new genetics with a ton of mating possibilities, we believe TAU Haymaker 46N is worth serious consideration.

Profitability in the beef industry is based on fertility, cow efficiency and longevity. Fertility alone has been documented as 12 times more economically important than any trait. JRI Rendezvous 254N325 offers you these Money In The Bank traits in one Complete Package. Rendezvous' fourth-calf dam, JRI Ms Eye On The Prize 254H425 possesses a fertility-plus 365-day annual calving interval and she has been honored as a Dam of Merit female in every year of eligibility ('24 & '25). Fertility, cow efficiency and longevity run mighty deep in Rendezvous' genetic makeup as he features four Dam of Merit honored grandams with his great grandam, JRI Ms Extra Exposure 254L53 producing scalebusting genetics for 14 years. Rest assured, cow efficiency is bred-in as Rendezvous posted a whopping 1,020# actual weaning weight which equated to 71.9% of his Dam of Merit dam's body weight. Top 15% calving ease & growth EPD strength in an unmatched fertility-plus cow family package.

NOTT High Noon 4M18 is a wide based smooth made son of the $600,000 Montana record selling sire Basin Jameson, 79 lbsbirth weight with an adjusted 205 day weight of 743 being raised on the grass of Sulphur Springs, Texas. He is a balanced, eye-appealing Balancer bull emphasizing carcass valve, growth and quite disposition. A high- indexing genetic package suited for breeders pursuing efficiency, marbling and maternal performance. Excellent EPD Profile, top 1% marbling and FPI (Feeder Profit Index), Top 5% Weaning, Yearling Weight, Top 10% Carcass Weight and Top 2% Total Performance Index. NOTT High Noon 4M18 reflects the direction of Nottingham Ranch's dual-focus breeding approach-balancing carcass merit, growth and functionality. This bull is built for breeders pursuing performance and profitability.

Power, performance, and pedigree come together in this high-percentage Balancer bull. He ranks in the Top 4% of the breed for WW and YW, delivering the kind of growth that moves a program forward—yet he maintains the maternal strength the Balancer breed is known for, landing in the Top 15% for Milk. Carcass merit is built in, with Top 15% Ribeye Area and Top 35% Marbling, offering balance and marketability in one complete package. His high-percentage Balancer makeup opens the door to endless breeding opportunities, and his top-side pedigree brings a valuable outcross to most Balancer lines. Phenotypically, he is the kind that grabs attention—deep-bodied, big-ribbed, and bold in his design. We sincerely appreciate your consideration and humbly ask for your vote. Thank you.

NOTT Colt 45 4M11 brings worlds of power and growth while ranking in the top 1% of the breed for WW, YW and Total Maternal with a double-digit CED. He represents balanced calving ease plus maternal strength, quiet disposition, balanced phenotype with width, depth, big boned, good footed and correct. Balanced carcass profile with feed efficiency Potential Colt 45 reflects the disciplined performance-driven breeding program at Nottingham Ranch. He combines growth, structure, and docility demanded by both seedstock breeders and commercial cattlemen. Expect Colt 45 to boost performance in a real-world attractive package.
